A place where YOU can develop your passion — and turn it into a career. A place where YOU can make a difference now and throughout your lifetime. At Benedictine, we put YOU first. ## WE MAKE EDUCATION AFFORDABLE AND ATTAINABLE.

At Benedictine University, we promise our students an education that is affordable. We work with students and their families to exhaust all possible means of financial aid, including federal loans, need-based grants, academic scholarships and work-study options. We make sure that attaining a college education won't leave you mired in debt, only swimming in opportunity.

We help prepare you for life...that's a promise.  
 Benedictine promises students an environment in which they can become better learners, leaders and world citizens. It doesn't only happen in the classroom. That's why our students work at Argonne National Laboratory, intern at financial giant Merrill Lynch and perform community service to benefit the elderly and the poor. They visit small villages in Cuba, scale the Great Wall of China, study abroad in Denmark or Spain and perform research in Switzerland.

Where will Benedictine take you?  
**Your possibilities are endless.**

How much would  
**\$20,615**  
 help you? (That's our average financial aid package for freshmen.)

**139** endowed scholarships.  
 All you have to do is apply.

Nearly **1/4**

 That's a lot.

**DIVERSITY**  
 More than one-third of our students are of Asian, African-American or Hispanic descent, and 26% say they're Muslim.\*
